

Desacoplamento

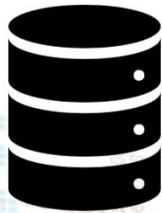

Como?

- Redshift Spectrum
 - external schema
 - external table

Como?

- Northwind
 - Public
 - categories
 - orders
 - ...
 - schema_northwind
 - employees

Etapas

1. Excluir tabela employees do Northwind
2. Criar Bucket e Fazer Upload do Arquivo parquet
 1. Bucket deve estar na mesma região do cluster!
3. Criar IAM Role para o Serviço do Redshift
4. Criar external Schema e external table
5. Consultar!
